

Your one stop solution for
HVAC Duct Fabrication

DEV DUCT Engineering

About Devduct Engineering

Devduct Engineering is one of the leading HVAC Duct Fabricators in Bangalore. By delivering consistently-high product quality, uninterrupted supply, and unparalleled service and support, Devduct is emerged as reliable solution provider for HVAC Industry.

Since our inception, our engineering staff has pioneered in providing innovative duct solutions to HVAC engineers and contractors in and around Bangalore.

Devduct Engineering manufactures high quality and wide range of Air ducting systems viz..Air Conditioning Duct, Pre Fabricated Duct, Ventilation Duct, Exhaust Duct and Duct Accessories like Nuts/ Bolts/Washers, Gasket etc.

Devduct Engineering Undertake Ducting & Insulation Work For Central Air Conditioning, Ventilation & Air Cooling Plant Systems etc

We offer cost effective and power efficient air ducting solutions to customers of different needs.

**Pre-fabricated Ducts | Exhaust Ducts
Ventilation Duct | HVAC Duct**

Mission and Vision

We at Devduct Engineering look for continuous improvement and evolution, through individual and collective excellence, and committed to provide a complete solutions, products and services to our clients

Quality Policy

We give utmost attention for quality of the products from the point of raw material sourcing, to the commissioning of the finished products at customers place and ensure quality workmanship.

Devduct prefabricated Air ducts are manufactured with very high quality material which is procured from very reliable vendors of the markets. These prefabricated ducts include smooth profile elbows so that the air flow within the duct is not disturbed. We customize these as per the client's specification and we offered these prefabricated ducts at very cost effective prices

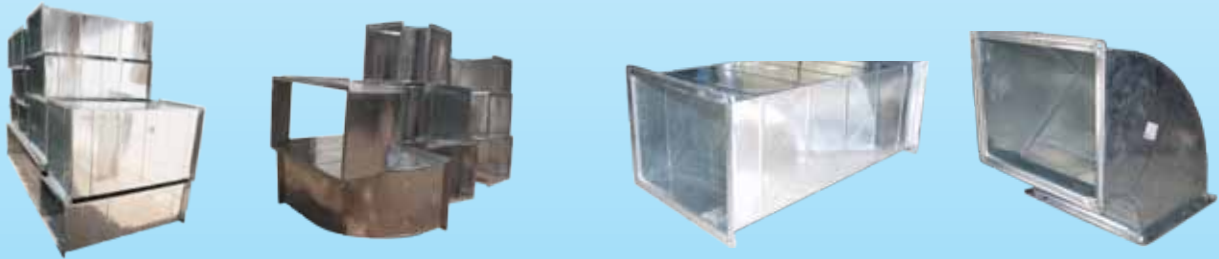

Rectangular Duct and fittings

Devduct Engineering. provides quality HVAC ductwork products, including Transverse duct flange(TDF), C and SS cleats, and rectangular duct too. We turn around quotes quickly, delivering HVAC ductwork on time and at an affordable price that keeps you competitive.

Manufactured with cutting edge technology, the product range consists of strong and virtually leak-free rectangular ducting components like Duct panels, coupling systems and a complete line of accessories for installing rectangular HVAC ductwork. We are specialised in fabricating **Stainless Steel, Aluminium, GI** Ducting works. We can also undertake **Brass Sheheet** Duct work for Temples.

All HVAC ductwork products are suitable for both new construction and retrofit projects in the residential, commercial, institutional, industrial and sports and leisure sectors.

They are especially suitable for use on high specification projects like food, beverage and pharmaceutical industries; communication / server rooms in data centers; high relative humidity environments such as swimming pools; and clean air and hygiene controlled environments such as sterile areas of hospitals or laboratories.

Spiral Duct and fittings

Our friendly, three stage process

Evaluation — Production can often be scheduled within hours of your call or on site evaluation. We figure out what you need and the most effective way of meeting your requirements.

Custom Fabrication — We create a custom product from quality materials that best meets your expectations and job requirements.

Timely Delivery — We customize our timeline to meet your delivery requirements. We will do what we have to get your order to you when you need it.

Customer Service, Our Equipment, and Facility

Devduct Engineering continues to grow and thrive due to a company commitment for excellence in customer service. We believe that if we can produce custom quality product at a competitive price, customers will continue to rely on Devduct Engineering for their fabrication requirements. We believe in relationship building and bringing customers back time and time again. This is how it has always been and how it we will continue to do business for years to come.

With an experience of more than two decades in the HVAC industry, we are ready to take up your requirements and create a custom fabrication accurately and efficiently, meeting your delivery deadlines. We aspire to be The Leader in providing the Best Engineering Solutions and the highest quality products for HVAC ducting requirements.

We offer solutions for the following industry Types:

1. Industries
2. Warehouses
3. Hotel Kitchens
4. Hospitals
5. Basement Parking
6. Apartments
7. Central Airconditioned Halls
8. Auditoriums

Our Clients:

Bluestar
Daiken
Voltas
Mitsubishi
Carrier
GE
Biocon
Vidhana Soudha
Himalaya Drugs Company
ABS Aircon Engineers
Cryogenics
Akkhrutha Technocrats Limited
Shrinidhi Enterprises
Climecon Engineers
Sneha Enterprises
Classic Airconditioning Services
Peace HVAC Systems

... and more

Devduct produces HVAC duct and fittings you can rely on. Our plant is equipped to do custom fabrication in sheet metal including galvanized steel, stainless steel, aluminum, and more. With state-of-the-art equipment, and skilled workforce, Devduct can accommodate jobs of any size.

To learn more about how we can save you time and money by handling all of your sheet metal fabrication and HVAC Duct work components, contact us today.
